

Build things. *Share knowledge.*

A youth-led organisation for technology, creative projects
and community.

FEATURED EVENT

Chronocrypt

A Hunt Across Time

13 November

Registration coming soon

Learning by doing.

TechFoundry began as a technology-focused initiative and grew into a home for projects, events and people who want to make ideas real. We believe learning becomes useful when it leaves the notebook: build a prototype, invite people in, test it and learn from the result.

SIX CONNECTED DISCIPLINES

01	Technology	Websites, systems and experiments that turn ideas into useful things.
02	Cybersecurity	Cryptic hunts, practical learning and curiosity about how systems work.
03	Events	Technical challenges and experiences that bring people together.
04	Startups	Space for emerging builders to test early concepts and develop new ideas.
05	Creative work	Film, design and storytelling with a human perspective.
06	Community	People sharing knowledge, asking questions and learning by doing.

Our principles: build things, experiment, share knowledge, support new ideas and create communities that help people become more capable.

Meet the foundry.

Eight people. A shared commitment to building, learning and bringing ideas into the world.

01 **Aaryaman Shrivastav**
CEO, Founder

02 **Virat Chaturvedi**
COO, Founder

03 **Aarav Shishodia**
CTO

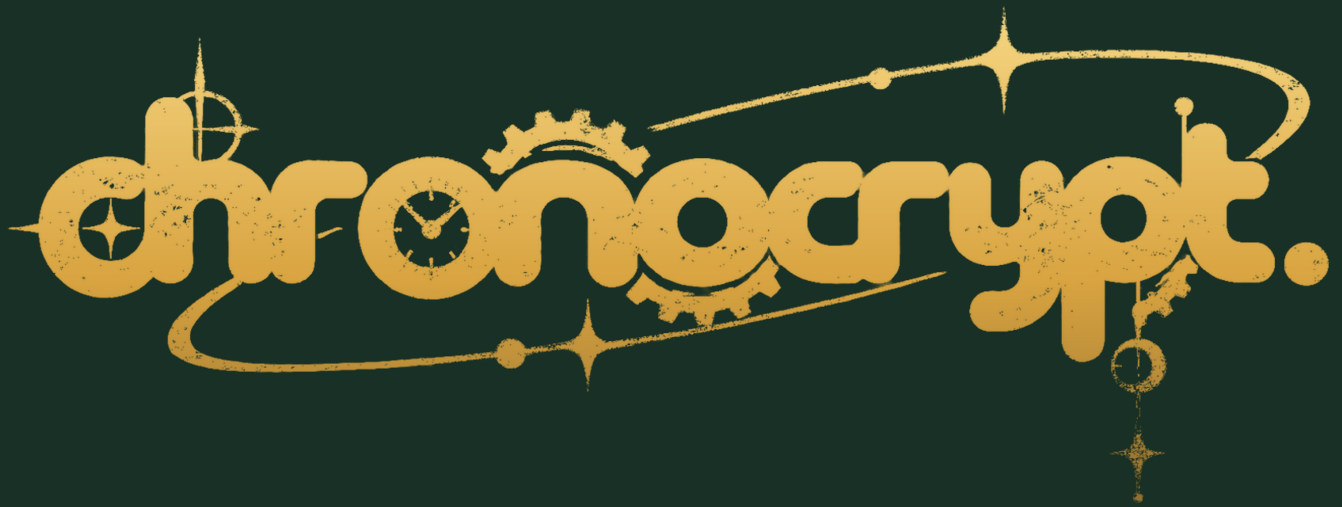

04 **Gabriel Dos Santos Laureano**
CMO

05 **Rishabh**
Chief Advisor

06 **Anaadi**
Head of Events

07 **Ruhaan Sharma**
Outreach Director

08 **Nuwan Gaurav Gupta**
Director

A Hunt Across Time

A word hidden in an image. A pattern in a page. A connection you nearly missed.

Chronocrypt is an online cryptic hunt by TechFoundry. Each level conceals a word or phrase, and each correct answer unlocks the next clue. Research, observe and connect the pieces.

13
NOVEMBER

Online

Solo or teams of 1-4

Free to enter

Registration coming soon

Look closer.

01 Assemble your team

Enter solo or work with a team of up to four people.

02 Follow the evidence

Clues can appear in images, audio, pages and the page source.

03 Connect the clues

Use research and logical thinking. Answers are entered in lowercase without spaces.

04 Continue the hunt

Each correct answer opens the next clue. Teams must not collaborate with competing teams.

BEFORE YOU BEGIN

No coding experience is required. Observation, research and logical thinking are the starting points. The hunt is entirely online. Registration details will be announced through the TechFoundry community.
